16 SHADES[©]

100 % BCI COTTON / 100 % HANDCRAFT
100 % FITTING / 100 % GARMENT DYE

With „16 Shades“ we offer exactly the right product to equip the sales areas even more competently and ensure more attractiveness through the wide range of colors.

All items are in keeping with the redpoint philosophy; perfectly finished and dyed using a complex, sustainable garment-dyeing process in our own factories using state-of-the-art machine technology.

As an unbeatable offer: There are no minimum quantities. Retailers can thus put together the range that is exactly right for them and their customers without any risk.

For more information please contact us: info@redpoint-sportswear.com

VARIETY OF COLOURS!

16 Shades offers an extremely high selection of modern and seasonal colours!

The high standard is guaranteed by production in audited, own modern factories and laundries! Less chemicals, less energy, less water.

SUSTAINABILITY

STRETCH & COMFORT

Super enjoyable thanks to high-stretch or lightweight natural cotton.

High quality and modern design with over 75 years of experience of international fashion business.

LOW IMPACT

OMF

EIM[®]-SCORE The Jeannot

Calculation of the enviromental Impact

Considerations to the calculation of the environmental impact of the four different categories.

	①	②	③
	Four individual categories:	Benchmark against an Environmental Threshold	Classification depending on the EIM score
Water Consumption l/garment	0-35	35-80 +80	0-33 LOW IMPACT
Energy Consumption kWh/garment	0-2	2-4 +4	34-66 MEDIUM IMPACT
Chemical Impact	0-25	26-50 +50	+66 HIGH IMPACT
Workers' Health	0-10	11-30 +30	

The Better Cotton Initiative (BCI) is a global not-for-profit organisation and the largest cotton sustainability programme in the world. BCI exists to make global cotton production better for the people who produce it, better for the environment it grows in and better for the sector's future.

Developed in response to demand for high-stretch denim fabrics that retain their shape, LYCRA® dualFX® technology is based on several patented technologies from The LYCRA Company. Typically, as fabric stretch increases so does the tendency for fabric growth or shrinkage. Combining LYCRA® fiber and LYCRA® T400® fiber together in a single fabric delivers the best of both worlds: the stretch of LYCRA® fiber and the recovery power of LYCRA® T400® fiber. In denim, the technology delivers extremely comfortable, high-stretch jeans that retain their shape all day.
